

Special Testing

Living in our area specialized testing can take days and sometimes weeks to get results from outside laboratories. We are always looking for ways to speed up results so we can better treat our patients! Our in-house laboratory does just that so you don't have to endure the days of worry while waiting for many lab tests that were previously send out!

Cardiac

Detection and monitoring of heart disease in dogs and cats.

- Feline NT-proBNP
- Canine Tnl
- Canine NT-proBNP
- Feline Tnl
